

IN THE DRAWING

Please substitute the accompanying drawing sheet (having one unnumbered drawing figure) for the drawing sheet currently of record. The "replacement sheet" containing the drawing for this application include reference character "Z<sub>M</sub>" for designating the center plane of corrector pieces 5, 6, with the optical axis of corrector 3 being designated by reference letter "Z."

In the first Office Action, the Examiner had objected to the drawing figures, pursuant to 37 C.F.R. §1.83(a), on the ground that the originally-filed drawing figures failed to include reference character "Z<sub>M</sub>," which is referred to at Page 11, lines 22-27, of Applicants' Specification.
